### Injection/Disposal Permit Detail

| Injection/Disposal Permit Detail Information |   |
|--|---|
| UIC No.:                                     | 000115647                                 |
| API No.:                                     | 317-41032                                 |
| Well No.:                                    | 431D                                      |
| Original Authority Date:                     | 09/20/2017                                |
| H-1 No.:                                     |   |
| H-1 Date:                                    |   |
| W14 Date:                                    | 09/20/2017                                |
| W14 No.:                                     | 15531                                     |
| Permit Canceled Date:                        |   |
| W-3 Plugged Date:                            |   |
| Injection Type:                              | Disposal into a nonproductive zone (W-14) |
| Special Conditions:                          | Commercial                                |
| H-10 Status:                                 | ACTIVE                                    |
| Permitted Fluid(s):                          | Salt Water                                |
| Other Permitted Fluid(s):                    | RCRA                                      |
| Reported Fluid(s):                           | SALT WATER                                |
| Other Reported Fluid(s):                     |   |
| Activated Flag:                              | Y   |
| Max Liquid Injection Pressure (PSI):         | 1920                                      |
| Max Gas Injection Pressure (PSI):            |   |
| Max Liquid Injection Volume (BBLS/Day):      | 30000                                     |
| Max Gas Injection Volume (MCF/Day):          | 0   |
| Approved Packer Depth:                       | 3825                                      |
| Top Injection Zone:                          | 3840                                      |
| Bottom Injection Zone:                       | 5700                                      |
| Formation Names:                             | GRAYBURG/SAN ANDRES                       |
| H-5 Schedule Date:                           |   |
| H-5 Due Date:                                |   |
| H-5 Received Date:                           | 11/30/2017                                |
| Last H-5 Date:                               | 11/29/2017                                |
| Last H-5 Type:                               | MECHANICAL INTEGRITY TEST                 |

|                                  |              |
|----------------------------------|--------------|
| Last H-5 Results:                | PASSED       |
| H-5 Test Frequency:              | INITIAL TEST |
| Tbg-Csg Ann Mon:                 | OPTIONAL     |
| TCAM Credit Date:                |              |
| TCAM Reported Reading Per Month: | 0            |
